DECLARATION OF PRIOR INVENTION UNDER 37 C.F.R. § 1.131

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir/Madam:

This Declaration is submitted to establish prior invention of the subject matter of the present patent application in the United States. The person making this Declaration is the inventor George Bradley Hobbs.

Accompanying this Declaration are Exhibits A through E to establish conception of the subject matter of the present patent application prior to the earliest effective date of June 26, 2000 of the Kawai et al. US Patent No. 6,404,994 coupled with due diligence from prior to the earliest effective date of the Kawai patent up to the filing date of the present patent application (i.e., constructive reduction to practice).

Declaration under 37 C.F.R. § 1.131

Serial No.: 09/734,295

Filed: December 11, 2000

Docket No.: 10003974-1

Title: PRINT PROCESSING SYSTEM AND METHOD WITH PRINT JOB ADVERTISING

Exhibit A (3 pages) includes a copy of HP Invention Disclosure No. 10003974 submitted by the inventor George Bradley Hobbs and received by the HP Legal Department prior to the earliest effective date of the Kawai et al. US Patent No. 6,404,994. This invention disclosure describes subject matter of the present patent application.

Exhibit B (1 page) includes a copy of a letter from HP Patent Attorney-Outsourcing Manager Steven R. Ormiston to patent attorney Steven E. Dicke of Dicke, Billig & Czaja dated June 7, 2000 (a date prior to the earliest effective date of June 26, 2000 of the Kawai et al. US Patent No. 6,404,994), requesting a quote of the cost to prepare and file a U.S. patent application based on HP Invention Disclosure No. 10003974-1 (i.e., the present patent application).

Exhibit C (1 page) includes a Request for Quote and Engagement Letter Agreement for the preparation and filing of a US patent application based on HP Docket No. 10003974-1 (i.e., the present patent application). The agreement was signed by patent attorney Steven E. Dicke of Dicke, Billig & Czaja on June 13, 2000 and by HP Patent Attorney-Outsourcing Manager Steven R. Ormiston on June 19, 2000 (dates prior to the earliest effective date of June 26, 2000 of the Kawai et al. US Patent No. 6,404,994).

Exhibit D (2 pages) includes a copy of an invoice dated November 1, 2000 from Dicke, Billig & Czaja to Hewlett-Packard Company for the preparation of the patent application based on HP Invention Disclosure No. 10003974-1 (i.e., the present patent application). From this invoice, it can be seen that acts in preparation of the patent application occurred between at least June 14, 2000 (a date prior to the earliest effective date of June 26, 2000 of the Kawai et al. US Patent No. 6,404,994) and October 31, 2000.

HP Invention Disclosure No. 10003974-1 (i.e., the present patent application) was one of a group of related disclosures (10003974-1 and 10003973-1) for which related patent applications were prepared, as identified in the "Cross-Reference to Related Applications" of the present patent application. Those related applications were part of a docket of cases prepared by patent attorneys Steven E. Dicke and Scott A. Lund of Dicke, Billig, & Czaja between at least June 14, 2000 (a date prior to the earliest effective date of June 26, 2000 of the Kawai et al. US Patent No. 6,404,994) and October 31, 2000. Work on these related applications contributed substantially to the ultimate preparation of the present patent application.

Declaration under 37 C.F.R. § 1.131

Serial No.: 09/734,295

Filed: December 11, 2000

Docket No.: 10003974-1

Title: PRINT PROCESSING SYSTEM AND METHOD WITH PRINT JOB ADVERTISING

Exhibit E (1 page) includes a copy of a letter from patent attorney Steven E. Dicke of Dicke, Billig & Czaja to HP Patent Attorney-Outsourcing Manager Steven R. Ormiston dated October 31, 2000. This Letter was accompanied by a draft of the patent application prepared for HP Invention Disclosure No. 10003974-1 (i.e., the present patent application) as reviewed and approved for filing by the inventor. The patent application was subsequently filed on December 11, 2000.

From these exhibits, it can be seen that the subject matter of the present patent application was conceived in the United States prior to the earliest effective date of June 26, 2000 of the Kawai et al. US Patent No. 6,404,994 coupled with due diligence from prior to the earliest effective date of the Kawai patent up to the filing date of the present patent application (i.e., constructive reduction to practice).

As a person signing below, I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

EXHIBIT A

Description of Invention: Please preserve all records of the invention and attach additional pages for the following. Each additional page should be signed and dated by the inventor(s) and witness(es).	
A. Description of the construction and operation of the invention (include appropriate schematic, block & timing diagrams, drawings, samples, graphs, flowcharts, computer listings, test results, etc.)	
A system for allowing customers to allow other businesses to put advertising on a print job for pay or mutual benefit. For example, a Building contractor designs a brochure to explain his contracting service. The electronic job ticket for submitting the job identifies the construction and home ooo	
B. Advantages of the invention over what has been done before.	
business along with customers who would get the printed material, # etc that describes the advertising target. other related businesses could submit target fields & customers they would like to advertise too along with what they would pay. In this example, a building products company would potentially pay for the print job if they could put an ad on the back or a coupon for buying their product advantages.	
C. Problems solved by the invention.	
Connecting advertisers with Print Job creation automatically based on attributes of the print job type & distribution. Also, selling the space currently not used on paper for mutual benefit.	
D. Prior solutions and their disadvantages (if available, attach copies of product literature, technical articles, patents, etc.).

Re: Preparation *and* Filing of Patent Applications for the attached Invention Disclosures

 File Directly To USPTO by: November 12, 2000

PDNO's: 10003974-1; 10003975-1; 10003979-1
10003981-1

Dear Steve:

We would like you to provide us with a quote of the cost for your firm to prepare *and* file (direct with the USPTO) a US patent application based on the HP invention disclosure identified above, a copy of which is enclosed. Your quote should be based on preparing and filing the application as specified on the attached green checklist.

You must use HP's USPTO forms and only reference HP's docket number on all filing documents and correspondence with the USPTO. All filing fees should be charged to HP's deposit account noted on the HP forms. Please do not prepare or file an assignment, HP will do that. Any questions regarding HP's forms and the JetForm software for use with HP's forms should be directed to Jennifer Torres at (850) 857-5796.

Your quote should be submitted on the enclosed Request for Quote And Engagement Letter Agreement. If your quote is accepted, we will return a fully executed copy of the Agreement to you for your records. The Agreement will not be binding on you or on HP until signed by HP's authorized representative.

If this Agreement is not signed and returned to HP, any bills submitted by you cannot be paid.

Sincerely yours,

Steven R. Ormiston
Patent Attorney-Outsourcing Manager
